

# How do I sign that?!?" Tackling interpretation in the science classroom.

Presented by Scott Cohen  
January 3, 2022  
9:00 AM - 3:00 PM (0.5 PS CEUs)  
(lunch 12:00 PM - 1:00 PM)

## Workshop Presented in ASL via Zoom.

### Workshop Description

Interpretation can be challenging in the science classroom. Students accessing direct instruction and interpreting services is a complex task. However, much of the science learned in school relies on students communicating and listening to ideas presented by teachers and peers during science lessons. This workshop will help professionals address some of these challenges by focusing on collaborating with teachers and students to create more inclusive science learning for deaf students. This workshop will introduce you to the basics of science education, such as 3D Learning - a national teaching framework in science classrooms, and its components to develop better nuances of interpreting in the science classroom.

Member Price = \$50.00

Non-Member Price = \$85.00

Registration is available until January 2, 2022.

Refund Policy: Refunds will not be issued after December 29, 2021.

You can register online from the [garid.org](http://garid.org) "events" page, or mail the registration form below with payment, payable to GaRID send to: GaRID PDC: PO Box 4341 Valdosta, GA 31604
